<b>Cellular and molecular neuroscience</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?			
<b>Neurophysiology</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?			
<b>Developmental neuroscience</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?			
<b>Neuroanatomy</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?			
<b>Systems and integrative neuroscience</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?			
<b>Neuropharmacology</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?			
<b>Minor (specialty) topic</b>	<b>Subscore =</b> /4	<b>Yes</b>	<b>No</b>
- Is the answer complete (does it include all relevant information)?			
- Is the answer logical?			
- Is the answer grammatically clear and generally spelled correctly?			
- If experiments are proposed, are they designed correctly to address the problem?
